Who we are looking for

This Startup will use business model innovation with an incredible product to help people in the US keep cool during the heat at an affordable cost.

- You are self-motivated with a Founder's mindset.
- You enjoy being a sparring partner for your co-founder.

What We Offer

- An idea, ready to start, with corresponding seed capital as well as large shares in the business to be founded.
- Support in team-building & finding a suitable co-founder
- Pre-determined partners who are willing to work together to help you bring this to market.
- Currently, we work flexibly from the home office due to COVID-19, but for this business remote is an option. You will have to meet us in person several times throughout the year.

At 2b AHEAD Ventures, we attach great importance to a work culture that offers equal opportunities and promotes diversity for every employee. We would like to call on all interested people, regardless of their gender or gender identity, sexual orientation, origin, age, religion, or disability, to apply.
